Re: Tulare Exemption - Elk Hills Power - EPA FRS ID 110012191430	04/25/2012 09:51 AM

Item Body

Thank you for the advance submittal Alan.

This is not the Attachment D in the renewal application that I have, where is this Attachment D from? Also, as I have not been able to locate the original application, is there any information on the aquifer exemption in the original application that may be helpful?

A quick question, was the attached map of the field boundaries drafted by your office, with the source being the DOGGR report?

Sincerely,

Michele

Subject: Tulare Exemption - Elk Hills Power - EPA FRS ID 110012191430

Dear Michele,

I am following up on the EPA/Elk Hills Power conference call last month (3-19-2012) concerning the subject UIC Permit Application. The purpose of the call was to discuss the EPA's written request (3-14-2012) for supplemental information from Elk Hills Power. In particular, EPA has requested written documentation regarding the aquifer exemption for the Tulare formation in and around the project Area of Review. You indicated that this documentation could be sent to you in advance of the official reply to give you an opportunity to review and comment on it. Attached is the information we were able to find concerning the Tulare aquifer exemption.

Please let me, and Sonnie Pineda, know if there are any other items on this topic that Elk Hills Power may include with its official reply.

Best regards, AAB

Alan A. Burzlaff, P.E.
